

# Vision Statement

International Rough Set Society (IRSS) 2022 Election

Hung Son Nguyen

Institute of Computer Science  
University of Warsaw, Poland

# About the candidate

---

- My name is **Hung Son Nguyen**. I am working at the University of Warsaw, Poland. I have been nominated to be a candidate for IRSS Vice President of 2022 Election and I have agreed to run to this position.

# Vision Statement

---

- IRSS should be an international organization supporting all scientists in the world in their research, application and development of new techniques in Rough sets. IRSS should support new collaboration initiatives like summer schools, training camps for young scientists and strengthening the ranking of conferences and journals for rough sets.
- Rough sets are not only a competitive approach to data analysis, but can also be complementary to other approaches.
- Rough Sets should follow the most recent trend in AI including eXplainable Artificial Intelligence (XAI) or robustness of (deep) learning algorithms.
